**Report on Structured feedback
From Stakeholders**

2020-2021

CONTENT

(1) Filled –in feedback Forms

- (a) Filled in feedback forms of three students (i) Top Ranker, (ii) Slow Learner (iii) Student from Category, as a representative samples
- (b) Filled –in feedback Forms of three Teachers (i) Professor, (ii) Associate Professor (iii) Assistant Professor, as a representative samples
- (c) Filled in feedback forms of three alumnae (i) Top Ranker, (ii) Slow Learner (iii) Student from Category, as a representative samples
- (d) Filled –in feedback Forms of Employers (i) Industry, (ii) Research Organisation (iii) Govt. Sector or NGO
- (e) Filled in feedback forms of parents (i) Top Ranker, (ii) Slow Learner (iii) Student from Category, as a representative samples

(2) Analysis of Feedback with Graphical Representation

(3) Comparison of Feedback of different Stakeholders

(4) Pertinent pointers identified & drawn to enhance the learning effectiveness

(5) Communication letters of 'Action Taken', as representative samples

(6) Screenshots of the Feedback Report displayed on website

(7) Basis of Planning the Revision or Updating the Syllabus based on the Feedback

(8) MoM of BoS and Academic Council on Feedback

(9) Action Taken and Improvement or Enrichment in the Curriculum

(10) Geotagged Photographs, if any

(11) Conclusion

Declaration

This is to state that all the Feedback Forms collected from all the stakeholders (a) Students, (b) Teachers, (c) Employers and (d) parents, for the 'Academic Year' 2020-21, are preserved in the School for record purpose and will be made available to IQAC at any time, when DVV Partner demands to produce it randomly.

- The report is prepared based on the Feedback Forms collected from the stakeholders.

Prof. S. B. Takale

Department's Curriculum Feedback coordinator

IQAC Co-ordinator at School Level

	1	2	3	4	5	
Poor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	Excellent

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities. *

	1	2	3	4	5	
Poor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	Excellent

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship? *

	1	2	3	4	5	
Poor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	Excellent

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry. *

	1	2	3	4	5	
Poor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	Excellent

7. What new component should be included in the curriculum for bridging the gap between Academia and Industry?

I believe we should add minors in 4th year and 4th year must be completely dedicated to internships with renowned organizations.

8. Give two strengths of the current syllabus. *

Electives being given are based on the latest trends in tech such as Data Science, Mechatronics, IoT and subjects like Soft Computing are also included. Another strength in the syllabus is the importance of Mini Projects in the curriculum in each semester since the beginning of 2nd year. Also, we are taught about ARM processors in 3rd year itself which makes the syllabus more industry relevant.

9. Give two observations / suggestions to improve the overall syllabus of the program. *

I think we should start providing minors to final year students. We've studied all the required subjects till 3rd year itself and depending on the student's interest, he/she should be given an option to do minors in a particular subject, and the minors should be the student's choice, not the options provided by the University so that the University's syllabus can be more flexible. Students should also be given some relief on their attendance provided that they do some industry sponsored projects and internships.

 Offline
 Blended

Any suggestions related to improving the courses/ curriculum?

If classes are online then you should accept only tuition fees and return extra money back to all parents because you are saving so much of money in COVID. And during lockdown sometimes it is hard to do transactions, so try to understand the problem and give some support to your own students who will represent your university, I had very bad experience from you.

Analysis of feedback forms

Note: The graphical bar charts show numbers in percentages.

AJ Students

I. Details of number of students and responses obtained course wise

Total number of students enrolled in B. Tech	118
Total number of feedback obtained	80

POOR	FAIR	GOOD	VERY GOOD	EXCELLENT
1	2	3	4	5

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?

Values are in %

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

Values are in %

3. Assess the inclusion of a "Recent Development/Research Component" and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum.

Values are in %

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

Values are in %

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

Values are in %

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

Values are in %

I. Major themes identified

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Involving students in practical training , and giving monthly feedback about their performance
- More practical things that brings Electronics and Programming together
- Try to focus on the softer and behavioural aspects such as interpersonal skills, leadership capability, attitude, communication skills (with increased emphasis on learning the English language) team spirit
- Industry visits should be arranged.
- Internships should be given some weightage in syllabus and should be made compulsory.

Strengths of the current syllabus

- Practical knowledge and proper implementation.
- Electives are properly chosen.
- Focused on Industry Needs
- Stress on project based learning through mini projects
- Electives being given are based on the latest trends in tech such as Data Science, Mechatronics, IoT and subjects like Soft Computing are also included. Another strength in the syllabus is the importance of Mini Projects in the curriculum in each semester since the beginning of 2nd year. Also, we are taught about ARM processors in 3rd year itself which makes the syllabus more industry relevant.

Observations / suggestions to improve the overall syllabus of the program

- Practical knowledge should be increased, so more focus should be given on practicals.
- Teaching about frontend , backend development as well as devops and other new technical subjects . Students have to learn this from outside.
- Minors should be provided atleast in fourth year.
- Please try to keep Foreign language sessions twice a week
- Industry personnels should be involved in projects

Bj Teachers

I. Details of number of Teachers and responses obtained.

Total number of Teachers	14
Total number of feedback obtained	11

POOR	FAIR	GOOD	VERY GOOD	EXCELLENT
1	2	3	4	5

II. Following Responses are obtained for the given questions.

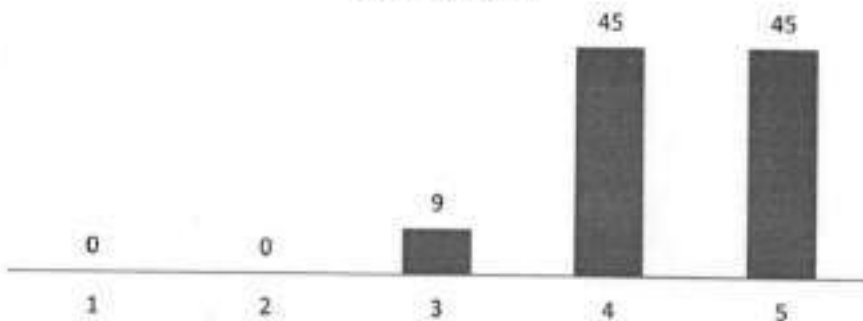

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?

Values are in %

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

Values are in %

3. Assess the inclusion of a "Recent Development/Research Component" and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum.

Values are in %

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.
Values are in %

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?
Values are in %

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.
Values are in %

III. Major themes identified

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Project life cycle management related subjects should be added such as electronic product design
- Applications Based Assignments.
- Credits on Sponsored project and internship.
- Guest Lecture, Industrial Visit on the higher side.
- Suggestions from industry experts must be included in syllabus.
- Compulsory Internship.
- Collaborative projects.
- Evaluation weightage of internship, training in terms of grades shall be incorporated .
- Industry small projects converted to internships.

Strengths of the current syllabus.

- Industry relevant and technologically advanced.
- Covering all domains of electronics and communication
- Project based learning, wide range of electives.
- Flexible and updated because of frequent revisions, industry oriented.

Observations / suggestions to improve the overall syllabus of the program

- Industry persons should be involved at least in the evaluation of projects.
- Proper balance of core subjects and Advanced subjects should be maintained, some weightage should be given for online certification courses offered by NPTEL/SWAYAM and the likes.
- Frequent changes should be avoided.
- Include industrial case studies, increase the research component.
- Projects should be given more weightage.

CJ Alumni

I. Details of number of alumni and responses obtained.

Total number of Teachers	47
Total number of feedback obtained	22

POOR	FAIR	GOOD	VERY GOOD	EXCELLENT
1	2	3	4	5

II. Following Responses are obtained for the given questions.

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?

Values are in %

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

Values are in %

3. Assess the inclusion of a "Recent Development/Research Component" and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum.

Values are in %

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

Values are in %

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

Values are in %

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

Values are in %

III. Major themes identified

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Assignment should be reduced and projects of each subject should be included.

Strengths of the current syllabus

- Covers great scope.& Provides in depth knowledge
- Scope for training sessions and workshops on syllabus topics

Observations / suggestions to improve the overall syllabus of the program

- More hands on experience should be given

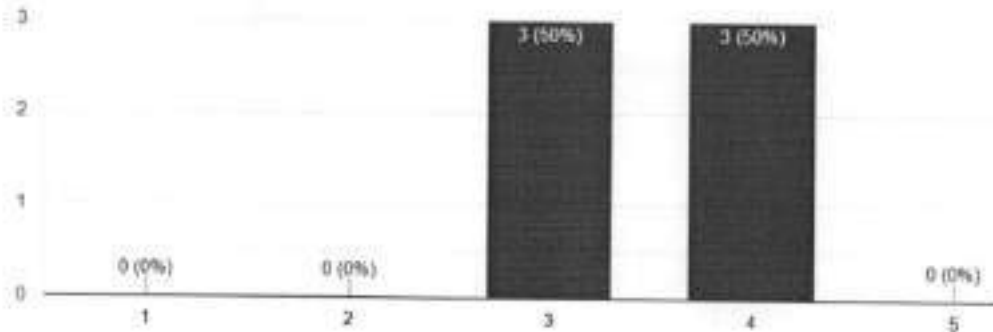

D) Employer

Common for all branches (As feedback taken at MITSOE level)

Analysis of Questions:

How can you rate the communication skill of the students

6 responses

1. Poor 2. Fair 3. Good 4. Very good 5. Excellent

Does the student have ability to learn and implement the industrial practices?

6 responses

1. Poor 2. Fair 3. Good 4. Very good 5. Excellent

Do you feel that our institute takes sufficient efforts in promoting internship, student exchange & Industrial visit for students?

6 responses

1. Poor 2. Fair 3. Good 4. Very good 5. Excellent

Does the academic score obtained by the students have reflecting the relevant skill & knowledge?

6 responses

1. Poor 2. Fair 3. Good 4. Very good 5. Excellent

Observations / suggestions to improve the overall syllabus of the program

- Basics should be clear so that after completion of degree, students should sustain in the industry.
- Please involve practical learning and more industry exposure to the courses, it helps a lot to be honest.
- Focus should be on student's confidence & communication through inclusion of soft skills related subjects.

3. Comparison of Feedback of different Stakeholders

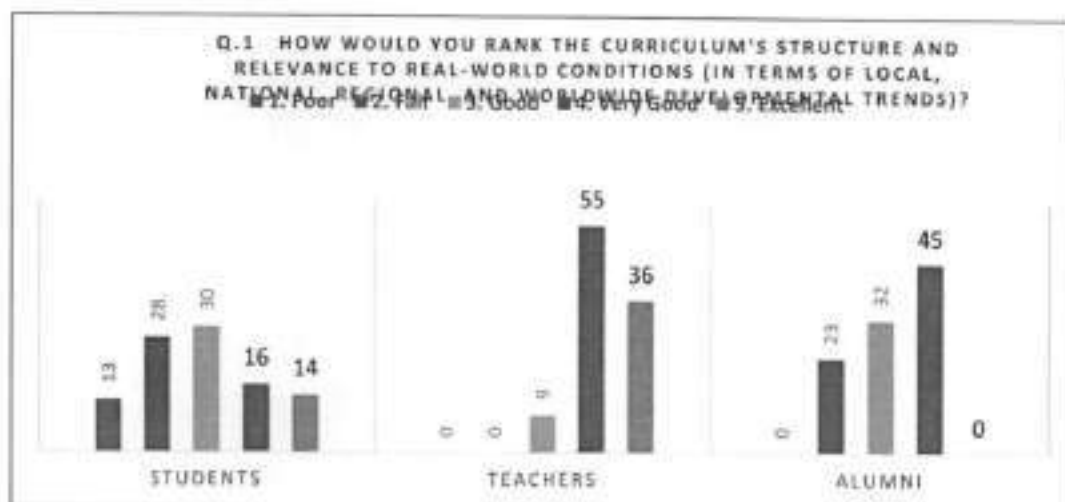

Comparison of the feedback has been done as A) the Rubric questions (Q.1 TO Q.6) in the questionnaire and B) Descriptive questions in which strength/improvement/ suggestions asked. (Q.6.Q.7&Q.8)

A) Comparison of feedback of different stakeholders on Rubric Questions (Q.1 TO Q.6)

[Note: The values in the table shows the % rating given by the respective stakeholder.]

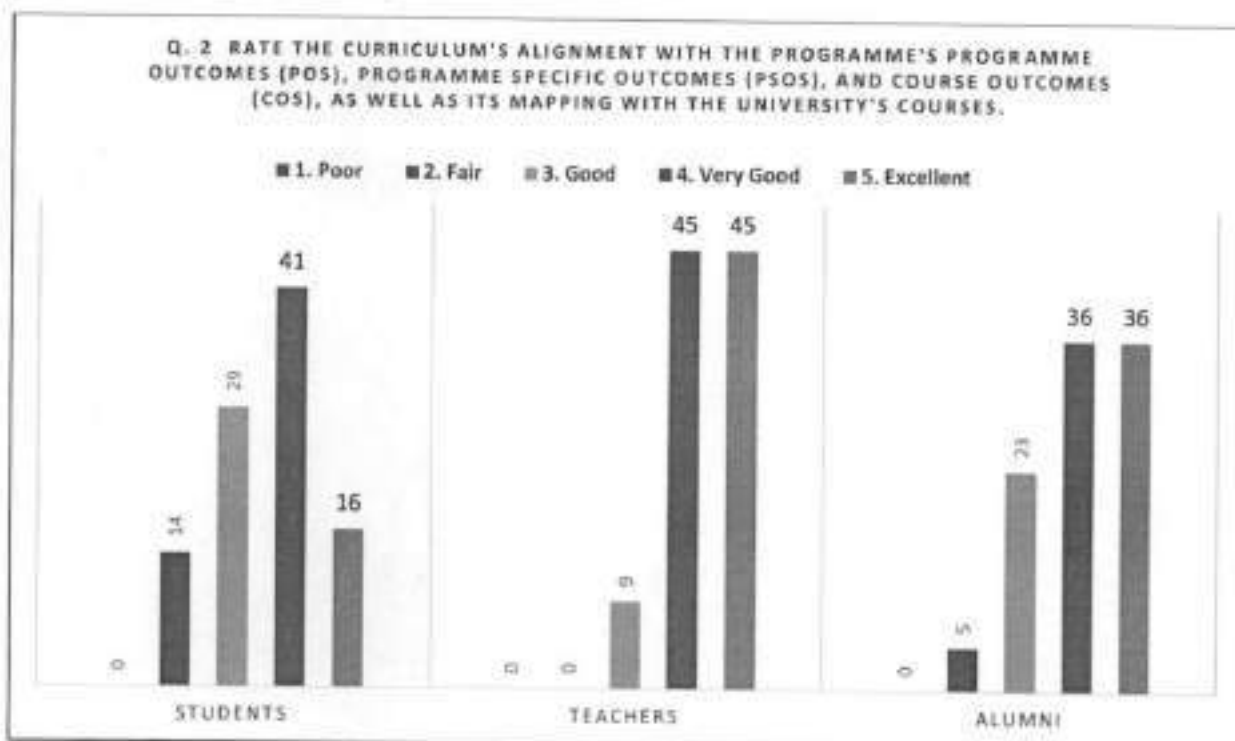

Q.1 How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent

4. Pertinent pointers identified & drawn to enhance the learning effectiveness

I. Pertinent pointers identified in Part A (Q.1 TO Q.6) from comparison of stakeholders:

It is observed from the above analysis that all the stakeholders have rated with good (25%), very good (39%) and Excellent (24%) in majority. Hence following conclusions are inferred.

1. Curriculum's structure is well ranked by stakeholders and it has good relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends).
2. As per the stakeholders response, curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses
3. The inclusion of a 'Recent Development/Research Component' and an adequate balance of theory, practical, and project work within the curriculum, together with training and internship possibilities.
4. Curriculum beneficial to constructive learning and the development of problem-solving abilities.
5. The stakeholders have given a very high rating to both the curriculum and the applicability of the curriculum in terms of employability and entrepreneurialism.
6. In accordance with the industry-required competences, stakeholders evaluated the curriculum's quality and breadth.

II. Pertinent pointers identified in Part B (Q. 7 to Q. 9) from comparison of stakeholders:

As per the feedback obtained from the stakeholders it can be understood that:

Strengths:

- Industry relevant and technologically advanced.
- Covering all domains of electronics and communication
- Project based learning, wide range of electives.
- Flexible and updated because of frequent revisions, industry oriented.
- Practical knowledge and proper implementation.
- Electives are properly chosen.
- Focused on Industry Needs
- Stress on project based learning through mini projects
- Electives being given are based on the latest trends in tech such as Data Science, Mechatronics, IoT and subjects like Soft Computing are also included.
- Another strength in the syllabus is the importance of Mini Projects in the curriculum in each semester since the beginning of 2nd year.

Improvement Needed:

As per the feedback obtained from the stakeholders things that can be done to enhance the curriculum include:

- Interview facing skills should be included in the syllabus
- A course focusing on entrepreneurship and administrative skills should be added.
- Industry persons should be involved at least in the evaluation of projects.
- Proper balance of core subjects and Advanced subjects should be maintained, some weightage should be given for online certification courses offered by NPTEL/SWAYAM and the likes.
- Frequent changes should be avoided.
- Include industrial case studies, increase the research component.
- Projects should be given more weightage.

Communication letter of 'Action Taken' for curriculum feedback received from stakeholders for A.Y. 2020-21:

Discussion related to curriculum feedback taken from the various stakeholders (Students, faculties, Employer, Alumni) and it is analysed by the faculty co-ordinators team in consultation with DUGC/DPGC members. The following observations are made and taken into consideration for fetching the pertinent pointers.

- A course focusing on entrepreneurship and administrative skills should be added in third or final year.
- Employers focused on need of programming skills and application development. VAP on programming languages, android application development should be planned to clear the basic of subjects.
- Addition of foreign languages in the additional courses to be taught by SHD/SCIL.
- Inculcation of more field trips, hands on experiences as per the industry requirement as well as funded research in collaboration with industry should be added.
- Inclusion of subjects like Data Science, Information Security in the syllabus as it is one of the important subjects helping in placements.
- Add some weightage for online certification courses offered by NPTEL, COURSERA or any other platform.

Employer feedback on Curriculum 2021-22 || MIT ADT University, Pune

Greetings to you!

Dear Sir, Ma'am,

We are grateful for your valuable support and guidance to avail the career opportunities for our deserving candidates till date. We are equally improving our academics to prepare our students matching the industry standards.

In an attempt to identify and improve the academic practices, we follow certain accreditations defined by the University Grant Commission from time to time. Your valuable inputs are certainly important to understand the grey areas and converting the same as an opportunity to improve for the mutual benefits.

Kindly refer to the questions below and provide your valuable feedback to strengthen the industry-institute relations thereof.

expected by the industry.

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

7. What new component should be included in the curriculum for bridging the gap between Academia and industry? *

A good grasp on problem solving skills, each student should atleast be a master of 1 particular skill, improving students verbal communication and most importantly focus on Data structures and Algorithms (not just for CS/IT background but this is required for Core background students as well in the industry).

Add individual feedback

8. Give two strengths of the current syllabus. **

Your answer

It makes you work on mini projects every semester, which helps you to be continuously be in touch working on something.

The curriculum keeps the students engaged most of the time. This is important as it makes a student hard-working and habitual of working for long hours.

Add individual feedback

9. Give two observations / suggestions to improve the overall syllabus of the program. *

There needs to be a sense of entrepreneurship among the students. And the curriculum need to focus on how they can make students generate business and not focus only on getting them a basic job. If entrepreneurship curriculum is generated then I'm sure the alumni and other graduates would make it easy for tomorrow upcoming students in their business ideas. Also there is a sense of motivation new students would get to do something good and not just run after a job.

Analysis of Feedback with Graphical Representation & Comparison of Feedback of different stockholders

2. Analysis of Feedback with Graphical Representation

Below the chart represents the percentage of feedback obtained from the different stockholders:

A) Students Feedback

I. Details of number of students and responses obtained course wise

Total number of students enrolled in UG Course [SY, TY & Final Year]	166
Total number of feedbacks obtained	76 (45.78%)

Number Code Index for Ratings

1. Poor 2. Fair 3. Good 4. Very good 5. Excellent

II. Following Responses are obtained for the given questions

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)? *

76 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

76 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum.

76 responses

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

76 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

76 responses

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

76 responses

III. Major themes identified [Stakeholder: UG – Students]

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Inclusion of object oriented programming subjects in curriculum
- Regular updates to students regarding the technology used in industry like new microprocessors and its incorporation in curriculum
- More credits should be given to practicals in curriculum
- A hands-on experience must be there for technical subjects, so that's easy to understand.
- Recent technology/ software and theory content to be included in the course
- Projects should be having teachers and industry experts as guide.
- Industrial Visits should be more

Strengths of the current syllabus.

- Industry relevant and up to date
- Inclusion of new technology and Industry oriented syllabus
- Chronological order of syllabus.
- mini projects every semester, which helps you to be continuously be in touch working on something.
- Inculcation of SCIL which helps to improve our logical, critical, creative, etc. aspects.

Observations / suggestions to improve the overall syllabus of the program

- Credit distribution should be balanced.
- Real world implementable study is given and addition of knowledge on circuits can be very useful for project building.
- Android and IOS app development should be added in syllabus.
- Provide for hands-on activities (active learning).
- Provide more industrial oriented subjects.
- Focus on Entrepreneurship-hood in the curriculum is expected.
- Sport/ extra-curricular activities focus/ Provide more hands-on activities (active learning)

Bj Teachers Feedback

I. Details of number of teachers and responses obtained course wise

Total number of faculty members in department	14
Total number of feedbacks obtained	11 (78.57 %)

Teachers Feedback Questions on Curriculum

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)? *

11 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

11 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum.

11 responses

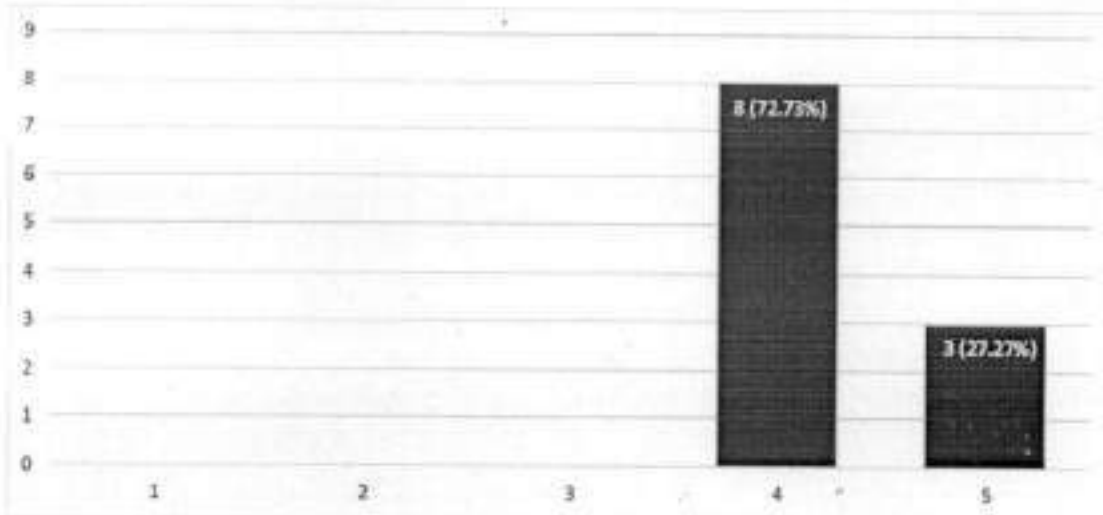

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

11 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

11 responses

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

11 responses

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Inclusion of guest lecture, Value Added Program, Industrial Visit on the higher side.
- Effective implementation of Project Based Learning, external evaluation should be added to mini projects.
- Inclusion of audit course based on skill development techniques in the domain
- More industry-oriented hands-on training and programme.
- Suggestions from industry experts must be included in syllabus.
- Conduction of 10% lecture of each subject by industrial personnel
- Collaborative projects.
- Evaluation weightage of internship, handson training shall be incorporated.

Strengths of the current syllabus.

- Industry Relevant and Technologically Advanced
- Stress on projects, blend of core, elective subjects
- Practical approach in terms of mini projects.
- Electives offered are as per recent trends and good flexibility for elective choices.
- Flexible and updated because of frequent revisions, industry oriented.
- Latest developments inclusion, structure of curriculum.
- Updated systematically and covers almost all aspects

Observations / suggestions to improve the overall syllabus of the program

- Domain-wise alignment of subjects from first year to last year, comment of industry

persons on the syllabus

- Add recent trends and technology used in industry
- Mini Project should be assessed by external examiner also
- Project Management Skills (Software based/ Analytical/ Numerical) as a mandatory laboratory course.
- Need to give more importance to incorporate more industry related component.

c) Alumni

Alumni

I. Details of number of ALUMNI and responses obtained.

Total number of students passed out (Alumni)	47
Total number of feedbacks obtained	34 (72.34 %)

Number Code Index for Ratings

1.Poor 2. Fair 3. Good 4. Very good 5. Excellent

II. Following Responses are obtained for the given questions.

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)? *

34 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

34 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum.

34 responses

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

34 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

34 responses

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

34 responses

III. Major themes identified [Stakeholder: Alumni]

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Some collaboration with IT for coding skills for electronics engineers.
- Internship programs from 4th year
- Entrepreneurial skill enhancement subjects should be given more weightage.
- Add Artificial Intelligence/ML subjects in the syllabus.
- Courses offered by companies should be offered as electives.

Strengths of the current syllabus.

- In-depth curriculum as well as Project in every semester
- Well Design to Industry
- In depth syllabus for better education and excellent faculty for students.
- Industry oriented Project based learning.
- Practical approach and deep understanding.

Observations / suggestions to improve the overall syllabus of the program

- Should add more projects and practical based assessments.
- Hands on internships may be an added advantage from 2nd or 3rd year of engineering
- More industry-oriented study and coding knowledge.
- Use technologies that are relevant in today's world.
- Various software that are used in real life industries can be taught.
- Internship opportunities, inclusion of software knowledge.

D) Parents

Parents

I. Details of number of parents and responses obtained.

Total number of feedbacks obtained	26
------------------------------------	----

II. Following Responses are obtained for the given questions.

1. How would you rank the curriculum's structure and relevance to real-world conditions (In terms of local, national, regional, and worldwide developmental trends)? *

26 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

26 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum.

26 responses

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

26 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

26 responses

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

26 responses

III. Major themes identified [Stakeholder: Parents]

Observations / suggestions to improve the overall syllabus of the program

- Syllabus should keep theory and written assignments to minimum and more practical and hands on work experience.
- It would be great if you can consider little more Interactive sessions with relevant Industry in curriculum which can create high level of awareness / updated with Industry standard.
- To provide easily understandable material.

E) Employer

I. Details of number responses obtained.

Total number of feedbacks obtained	07
------------------------------------	----

II. Following Responses are obtained for the given questions.

1. *Poor* 2. *Fair* 3. *Good* 4. *Very good* 5. *Excellent*

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)? *

7 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

7 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum.

7 responses

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

7 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

7 responses

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

7 responses

Observations / suggestions to improve the overall syllabus of the program

- Knowledge of basics is required.
- Industry understanding can be improvised – VAP, Webinars, Workshops, Conference, Guest lectures from Industry experts would help.
- Syllabus Revision-in accordance with the prerequisite's cases.
- Communication skill and aptitude related subjects should be included.
- Involvement of practical learning and more industry exposure to the courses.
- Focus should be on student's confidence & communication.
- They should sustain for longer durations.

3. Comparison of Feedback of different Stakeholders

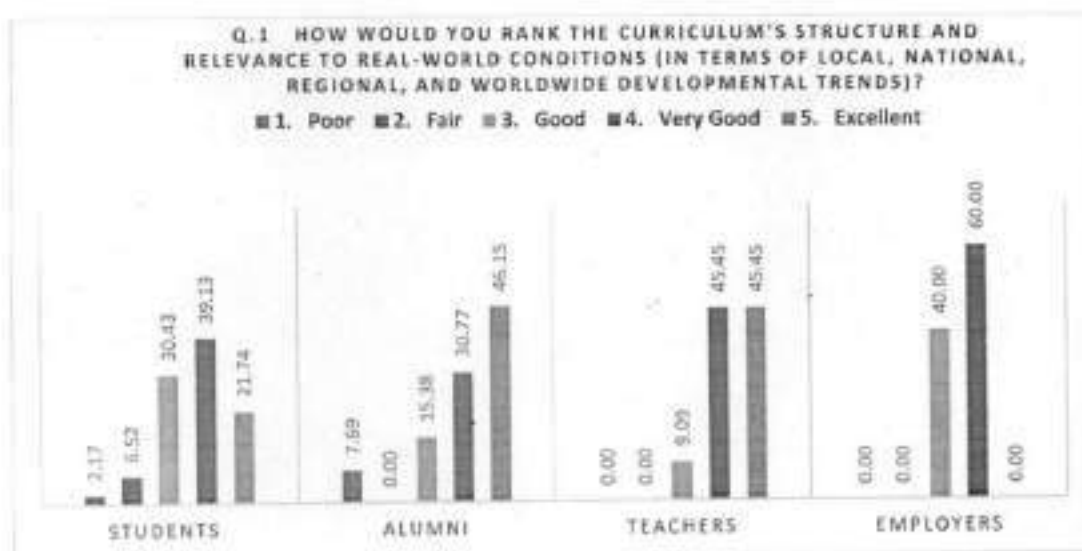

Comparison of the feedback has been done as A| the Rubric questions (Q.1 TO Q.6) in the questionnaire and B| Descriptive questions in which strength/improvement/ suggestions asked. (Q.6.Q.7&Q.8)

A| Comparison of feedback of different stakeholders on Rubric Questions (Q.1 TO Q.6)

[Note: *The values in the table shows the % rating given by the respective stakeholder.*]

Q.1 How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent
Students	1.32	14.47	17.11	28.95	38.16

4. Pertinent pointers identified & drawn to enhance the learning effectiveness

I. Pertinent pointers identified in Part A (Q.1 TO Q.6) from comparison of stakeholders:

It is observed from the above analysis that all the stakeholders have rated with good (30.06%), very good (33.03%) and Excellent (23.85%) in majority. Hence following conclusions are inferred.

1. Curriculum's structure is well ranked by stakeholders and it has good relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends).
2. As per the stakeholders response, curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses
3. The inclusion of a 'Recent Development/Research Component' and an adequate balance of theory, practical, and project work within the curriculum, together with training and internship possibilities.
4. Curriculum beneficial to constructive learning and the development of problem-solving abilities.
5. The stakeholders have given a very high rating to both the curriculum and the applicability of the curriculum in terms of employability and entrepreneurialism.
6. In accordance with the industry-required competences, stakeholders evaluated the curriculum's quality and breadth.

II. Pertinent pointers identified in Part B (Q. 7 to Q. 9) from comparison of stakeholders:

As per the feedback obtained from the stakeholders it can be understood that:

Strengths:

- Industry relevant and up to date
- Inclusion of new technology and Industry oriented syllabus
- Chronological order of syllabus.
- mini projects every semester, which helps you to be continuously be in touch working on something.
- Inculcation of SCIL which helps to improve our logical, critical, creative, etc. aspects.
- Stress on projects, blend of core, elective subjects
- Practical approach in terms of mini projects.
- Electives offered are as per recent trends and good flexibility for elective choices.
- Flexible and updated because of frequent revisions, industry oriented.
- Latest developments inclusion, structure of curriculum.

Improvement needed:

- Real world implementable study is given and addition of knowledge on circuits can be very useful for project building.
- Android and IOS app development should be added in syllabus.
- Provide for hands-on activities (active learning).
- Provide more industrial oriented subjects.
- Focus on Entrepreneurship-hood in the curriculum is expected.
- Industry understanding can be improvised – VAP, Webinars, Workshops, Conference, Guest lectures from Industry experts would help.
- Syllabus Revision in accordance with the prerequisite's cases.
- Communication skill and aptitude related subjects should be included.
- Add some weightage for online certification courses offered by Swayam, COURSERA.

Communication letter of 'Action Taken' for curriculum feedback received from stakeholders for A.Y. 2021-22:

The feedback is taken from the stakeholders (Students, Parents, Alumni, Faculties & Employer) and analysed by the committee including curriculum feedback coordinators, Academic monitoring committee, Domain coordinators. Later, a faculty meeting is organized to incorporate the modification of syllabus with consultation of subject teachers. Further the following observations forwarded to take the further action in BoS.

- **As per the feedback obtained from the stakeholders things that can be done to enhance the curriculum include:**
 - Mini and major projects curriculum should be updated and involvement of industry experts in project topic finalization and evaluation can be done.
 - More weightage should be given to placement related subjects and topics related to interview facing skills should be included in the syllabus
 - A course focusing on entrepreneurship and administrative skills should be added.
 - Inculcation of more field trips, hands on experiences as per the industry requirement as well as funded research in collaboration with industry should be added.
 - Course on communication and interpersonal skills should be added.
 - Add some weightage for online certification courses offered by NPTEL, COURSERA.

Students Feedback Questions on

Dear students, read the questions / statement and rate it.

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?*

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses. *

- 1 poor
- 2
- 3
- 4
- 5 Excellent
- Other: _____

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum. *

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities. *

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

7. What new component should be included in the curriculum for bridging the gap between Academia and Industry?

Industrial visit

8. Give two strengths of the current syllabus.* *

Your answer

Proper notes and method of teaching

9. Give two observations / suggestions to improve the overall syllabus of the program.*

Nothing

Analysis of Feedback with Graphical Representation & Comparison of Feedback of different stockholders

2. Analysis of Feedback with Graphical Representation

Below the chart represents the percentage of feedback obtained from the different stockholders:

A) Students Feedback

I. Details of number of students and responses obtained course wise

Total number of students enrolled in UG Course [SY, TY & Final Year]	166
Total number of feedbacks obtained	46 (27.71%)

Number Code Index for Ratings

1. Poor 2. Fair 3. Good 4. Very good 5. Excellent

II. Following Responses are obtained for the given questions

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?*

46 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (CO..II) as its mapping with the University's courses.

45 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as internship opportunities with the curriculum.

45 responses

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

45 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

46 responses

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

46 responses

III. Major themes identified [Stakeholder: UG – Students]

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Inclusion of object oriented programming subjects in curriculum
- Soft skill training should be imparted.
- More credits should be given to practicals in curriculum
- A hands-on experience must be there for technical subjects, so that's easy to understand. More workshops on technical topics should be arranged.
- Recent technology/ software and theory content to be included in the course
- Projects should be having teachers and industry experts as guide.
- Industrial Visits should be more

Strengths of the current syllabus.

- Industry relevant and up to date
- Inclusion of new technology and Industry oriented syllabus
- All the basic theory part is covered in very effective way.
- Project based learning and practical approach.
- Syllabus is good from placement point of view, in depth knowledge
- Inculcation of SCIL which helps to improve our logical, critical, creative, etc. aspects.

Observations / suggestions to improve the overall syllabus of the program

- Adding new component in syllabus.
- Include programming languages such as python and java.
- Industry relevant projects and problem statements (related to software) should be included in syllabus, practicals of theory subjects should be conducted as per latest requirements..
- Provide for hands-on activities (active learning).
- Provide more industrial oriented subjects.
- Focus on Entrepreneurship-hood in the curriculum is expected.

B) Teachers Feedback

I. Details of number of teachers and responses obtained course wise

Total number of faculty members in department	14
Total number of feedbacks obtained	11 (78.57 %)

Teachers Feedback Questions on Curriculum

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?*

11 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (CO...II as its mapping with the University's courses.

11 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical and project work, as w...g and internship opportunities with the curriculum.
11 responses

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.
11 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?
11 responses

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

11 responses

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Inclusion of guest lecture, Value Added Program, Industrial Visit on the higher side.
- Effective implementation of Project Based Learning, external evaluation should be added to mini projects.
- Inclusion of audit course based on skill development techniques in the domain
- More industry-oriented hands-on training and programme.
- Suggestions from industry experts must be included in syllabus.
- Collaborative projects.
- Evaluation weightage of internship, handson training shall be incorporated.

Strengths of the current syllabus.

- Industry Relevant and Technologically Advanced
- Stress on projects, blend of core, elective subjects
- Practical approach in terms of mini projects.
- Electives offered are as per recent trends and good flexibility for elective choices.
- Flexible and updated because of frequent revisions, industry oriented.
- Latest developments inclusion, structure of curriculum.
- Updated systematically and covers almost all aspects

Observations / suggestions to improve the overall syllabus of the program

- Domain-wise alignment of subjects from first year to last year, comment of industry persons on the syllabus
- Add recent trends and technology used in industry
- Mini Project should be assessed by external examiner also
- Project Management Skills (Software based/ Analytical/ Numerical) as a mandatory laboratory course.
- Need to give more importance to incorporate more industry related component.

C) Employers

I. No. of employers given the feedback: 5

Number Code Index for Ratings
1. Poor 2. Fair 3. Good 4. Very good 5. Excellent

II. Following Responses are obtained for the given questions.

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?*

5 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs) as its mapping with the University's courses.

5 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as internship opportunities with the curriculum.

5 responses

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

5 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

5 responses

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

5 responses

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- Invite Industry professionals to train students on current technological trends
- Engagement with local communities for their technical, resources need
- The industry oriented practical and projects to be included in the curriculum.

Strengths of the current syllabus.

- well designed and in co-odination with current industrial demands
- Good Curriculum designed as per current Market Situation
- Industry oriented, taking care of future needs

Observations / suggestions to improve the overall syllabus of the program

- Observe the syllabus of foreign universities every year and follow their curriculum changes and causes to develop your own syllabus.
- Engagement with local businesses especially mini and micro set ups. Provide them help from technical and resources perspectives...
- The real time embedded project inclusions in the syllabus

D) Alumni

Alumni

I. Details of number of ALUMNI and responses obtained.

Total number of students passed out (Alumni)	56
Total number of feedbacks obtained	13 (23.21 %)

Number Code Index for Ratings

1. Poor 2. Fair 3. Good 4. Very good 5. Excellent

II. Following Responses are obtained for the given questions.

1. How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?*

13 responses

2. Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs) as its mapping with the University's courses.

13 responses

3. Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as and internship opportunities with the curriculum.

13 responses

4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

13 responses

5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

13 responses

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

6. Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

13 responses

- 1 Poor
- 2
- 3
- 4
- 5 Excellent

III. Major themes identified [Stakeholder: Alumni]

What new component should be included in the curriculum for bridging the gap between Academia and Industry?

- focus on teaching industrial programming languages like C# , Java..
- Internship programs from 4th year
- Entrepreneurial skill enhancement subjects should be given more weightage.
- Courses offered by companies should be offered as electives.

Strengths of the current syllabus.

- In-depth curriculum as well as Project in every semester
- The theoretical and Practical content is balanced.
- Updated syllabus according to Industry requirements

- A mini project for every semester and good mix of practical and theoretical knowledge

Observations / suggestions to improve the overall syllabus of the program

- More industry-oriented study and coding knowledge.
- Use technologies that are relevant in today's world.
- Various software that are used in real life industries can be taught.
- Internship opportunities, inclusion of software knowledge.

3. Comparison of Feedback of different Stakeholders

Comparison of the feedback has been done as A| the Rubric questions (Q.1 TO Q.6) in the questionnaire and B| Descriptive questions in which strength/improvement/ suggestions asked. (Q.6.Q.7&Q.8)

A| Comparison of feedback of different stakeholders on Rubric Questions (Q.1 TO Q.6)

[Note: The values in the table shows the % rating given by the respective stakeholder.]

Q.1 How would you rank the curriculum's structure and relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends)?

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent
Students	2.17	6.52	30.43	39.13	21.74
Alumni	7.69	0.00	15.38	30.77	46.15
Teachers	0.00	0.00	9.09	45.45	45.45
Employers	0.00	0.00	40.00	60.00	0.00
Average	2.47	1.63	23.73	43.84	28.34

Q. 2 Rate the curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses.

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent
Students	0.00	8.70	23.91	43.48	23.91
Alumni	7.69	7.69	7.69	30.77	46.15
Teachers	0.00	0.00	9.09	36.36	54.55
Employers	0.00	0.00	20.00	60.00	20.00
Average	1.92	4.10	15.17	42.65	36.15

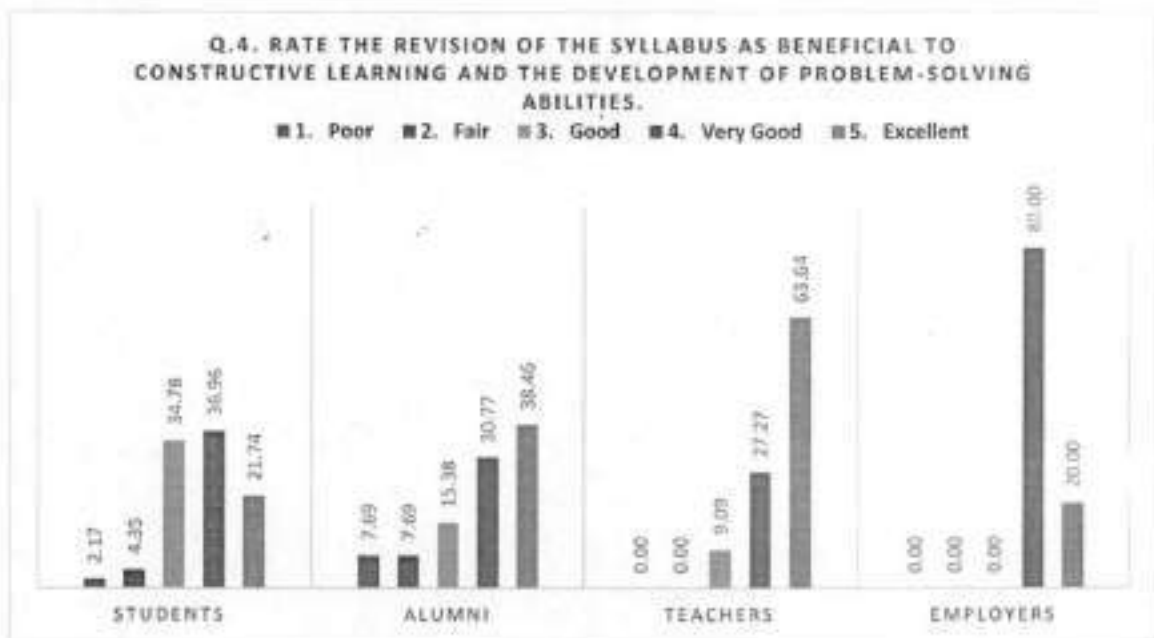

Q.3 Assess the inclusion of a 'Recent Development/Research Component' and the appropriate balance of theory, practical, and project work, as well as training and internship opportunities with the curriculum

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent
Students	0.00	6.52	32.61	50.00	10.87
Alumni	0.00	15.38	7.69	38.46	38.46
Teachers	0.00	0.00	0.00	54.55	45.45
Employers	0.00	0.00	40.00	40.00	20.00
Average	0.00	5.48	20.08	45.75	28.70

Q.4. Rate the revision of the syllabus as beneficial to constructive learning and the development of problem-solving abilities.

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent
Students	2.17	4.35	34.78	36.96	21.74
Alumni	7.69	7.69	15.38	30.77	38.46
Teachers	0.00	0.00	9.09	27.27	63.64
Employers	0.00	0.00	0.00	80.00	20.00
Average	2.47	3.01	14.81	43.75	35.96

Q.5. How would you rate the curriculum and its appropriateness in terms of employability and entrepreneurship?

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent
Students	2.17	6.52	32.61	34.78	23.91
Alumni	15.38	15.38	0.00	30.77	38.46
Teachers	0.00	0.00	0.00	72.73	27.27
Employers	0.00	0.00	20.00	40.00	40.00
Average	4.39	5.48	13.15	44.57	32.41

Q.6 Rate the standard / depth of the curriculum offered in terms of the competencies expected by the industry.

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent
Students	0.00	8.70	28.26	34.78	28.26
Alumni	15.38	0.00	7.69	38.46	38.46
Teachers	0.00	9.09	0.00	72.73	18.18
Employers	0.00	0.00	20.00	80.00	0.00
Average	3.85	4.45	13.99	56.49	21.23

↓ SUMMARIZED ANALYSIS

Average of all questions rated which shared with the all stakeholders

Stakeholders	1. Poor	2. Fair	3. Good	4. Very Good	5. Excellent
Q.1	2.47	1.63	23.73	43.84	28.34
Q.2	1.92	4.10	15.17	42.65	36.15

4. Pertinent pointers identified & drawn to enhance the learning effectiveness

I. Pertinent pointers identified in Part A (Q.1 TO Q.6) from comparison of stakeholders:

It is observed from the above analysis that all the stakeholders have rated with very good (46.18 %) and Excellent (30.46 %) in majority. Hence following conclusions are inferred.

1. Curriculum's structure is well ranked by stakeholders and it has good relevance to real-world conditions (in terms of local, national, regional, and worldwide developmental trends).
2. As per the stakeholders response, curriculum's alignment with the Programme's Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs), as well as its mapping with the University's courses
3. The inclusion of a 'Recent Development/Research Component' and an adequate balance of theory, practical, and project work within the curriculum, together with training and internship possibilities.
4. Curriculum beneficial to constructive learning and the development of problem-solving abilities.
5. The stakeholders have given a very high rating to both the curriculum and the applicability of the curriculum in terms of employability and entrepreneurialism.
6. In accordance with the industry-required competences, stakeholders evaluated the curriculum's quality and breadth.

II. Pertinent pointers identified in Part B (Q. 7 to Q. 9) from comparison of stakeholders:

As per the feedback obtained from the stakeholders it can be understood that:

Strengths:

- In-depth curriculum as well as Project in every semester
- The theoretical and Practical content is balanced.
- Updated syllabus according to Industry requirements
- well designed and in co-ordination with current industrial demands
- Good Curriculum designed as per current Market Situation
- Project based learning and practical approach.
- Syllabus is good from placement point of view, in depth knowledge
- Inculcation of SCIL which helps to improve our logical, critical, creative, etc. aspects

Improvement needed:

- The real time embedded project inclusions in the syllabus
- Domain-wise alignment of subjects from first year to last year, comment of industry persons on the syllabus
- Add recent trends and technology used in industry
- Mini Project should be assessed by external examiner also
- Include programming languages such as python and java.
- Industry relevant projects and problem statements (related to software) should be included in syllabus, practicals of theory subjects should be conducted as per latest requirements

Date:

'Action Taken' for curriculum feedback received from stakeholders for A.Y. 2022-23:

Discussion related to curriculum feedback taken from the various stakeholders (Students, faculties, Employer, Alumni) and it is analysed by the faculty co-ordinators team in consultation with DUGC/DPGC members. The following observations are made and taken into consideration for fetching the pertinent pointers.

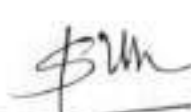

- Gap between curriculum and current trends in industry is identified by stakeholders specially alumni.
- A course focusing on entrepreneurship and administrative skills should be added.
- Inculcation of more field trips, hands on experiences as per the industry requirement as well as funded research in collaboration with industry should be added.
- Inclusion of programming subjects like object oriented programming in the syllabus as it is one of the important subjects helping in placements.
- Add some weightage for online certification courses offered by NPTEL, COURSERA or any other platform.
- Design of syllabus in accordance with National Education Policy 2020.

Planning the Revision for updating the Syllabus as per action taken report on curriculum Feedback of A.Y. 2022-23;

Following pertaining pointers will be discussed in the 11th BoS meeting which is scheduled on 21st April 2023.

- Introduction & Implementation of New Education Policy 2020 from AY 2023-24
- Discussion & approval of first year (2023-24) curriculum and detailed syllabus referring NEP 2020.
- The four-year structure of all programmes (including specializations) for all MIT SOES will be discussed in detail.
- Some minor changes in the course syllabus can be done based on pertaining pointers.
- Electives from TCS iON can be offered to student after approval of BOS.
- Value added programs (VAP) to be conducted in upcoming semester can be discussed.

The modified syllabus will be kept for approval from BOS, if any suggestion from BOS members will be incorporated in the syllabus. After passing through BOS, the syllabus will be forwarded to the Academic Council for approval.

Date: 14.4.2023
