# Dr. Mohit Dubey

## Brief Experience Summary:

An alumnus of **Australia India Youth Dialogue** (AIYD 2015) – a tier-2 level think tank of young leaders (age under 40 years) from India and Australia, Dr. Mohit is a National Institute of Technology, Karnataka (NITK) graduate in Chemical Engineering, Masters in Economics and PhD in "Information Technology and Economics" interdisciplinary area. He has overall **global experience of more than 23 years**. Having worked across the **triple helix of Corporate-Academia-Government**, Dr. Mohit brings the highly professional approach with Trust and Value based Leadership. Dr. Mohit is currently working as **Pro-Vice Chancellor at MIT ADT University, Pune**. He is also the **CEO of Atal Incubation Centre (AIC-MITADT)** at the University. AIC-MITADT is a section-8 *not-for-profit* company supported by **Atal Innovation Mission (AIM), NITI Aayog, Govt. of India** to promote Innovation and Entrepreneurship across the nation. His last assignment was *Director – Research Development Cell* where he established the process to strengthen Research, Innovation & Entrepreneurship ecosystem at MIT ADT University.

As the **first employee** of AIC-MITADT, Dr. Mohit has led the Incubator to be among the **'Best Incubators' of the AIM network**. He established strong processes and network of mentors/advisors to support over **~65 startups in last 5 years**. Many of the portfolio startups have won National/International awards and have created an overall Impact of **~INR 150.0 cr and created 200+ jobs**. He has also mentored several startups at T-Hub, Hyderabad, which is the world's largest Innovation Hub. Dr. Mohit is a member of Technology board at IIT Madras based Technology Innovation Hub (TIH) supported by DST, Govt. of India. He is among the Top 25 Mentors of the country for the Indo-Canadian bilateral startup program hosted by Startup India (Govt. of India) and Schulich Business School (Toronto, Canada). Startups mentored by him has made it to **Top 5 startups consistently in year 2022 and 2023** under this program. He mentors several upcoming ATLs, ACICs and Incubators in the country for strengthening their processes and procedures.

Dr. Mohit has immensely contributed towards the establishment of Institution's Innovation Council (IIC) that hosted the 5-day edition of hardware based 'Smart India Hackathon'. He has also been an active contributor towards building the pre-incubation ecosystem 'Centre of Research Innovation and Entrepreneurship for Young Aspirants' (CRIEYA) at the University. Dr. Mohit has been a regular speaker at various National and International forums on Leadership, Innovation and Entrepreneurship, Technology based Education.

Before joining MIT ADT University, he was the **Pro Vice Chancellor (Pro VC) at IFTM University, Moradabad (UP)**. As Pro VC, Dr. Mohit led the automation of entire University Operations, optimization of IT Infrastructure, enhancing Marketing, Admissions and Examination related processes. Dr. Mohit led the UGC compliance (2014) and NAAC audit (2017) of the University. He was also the 'Director - Corporate and International Relations' where he led all the strategic alliances for the University. He was a key member of Academic and Executive Council of the University.

He has attended many National and International programmes. Some of the leading events attended by him are:

1) Young Leaders' conference at **Sydney and Melbourne (Australia)** as part of **Australia India Youth Dialogue** (AIYD-2015)

2) "Higher Education Leadership" Programme at **Oxford University, UK** in 2015 sponsored by University under World bank's **Technical Education Quality Improvement Programme** (TEQIP –II ) scheme

3) "Higher Education Leadership" Programme at **Harvard University, USA** in 2016 sponsored by University under World bank's **Technical Education Quality Improvement Programme** (TEQIP –II) scheme

4) "Best Practices in Private Education" interaction sessions at **University of Cincinnati (UC), USA** in 2016

Prior to his Educational stint during his IT experience spanning over a decade with India's second largest IT company **Infosys ltd in Pune and Bangalore**, he moved up the value chain starting from Software Engineer to Client Solutions Manager in presales function in a very short span. As part of Customer Relationship management at Infosys, he worked with **Bank of America in Atlanta and Los Angeles in both the Technology and Business domain for more than 7 years**. His main interest areas include Banking and Capital Markets in which he completed the Certification in Capital and Derivatives market from **National Stock Exchange, India**. He won many awards and accolades at both Infosys and Bank of America for his '**Just Do it**' fervor across assignments.

With a passion and intent to "**give back to the society**", he moved back to his native place Moradabad under **"Community Empathy" Programme of Infosys** in 2011. Since them he has found a new passion in making private Higher Education system more productive by leveraging the power of Technology and institutionalizing Quality processes.
